

FAST FACT

Career Services posted 6,748 job leads for students in 2010.

Productive pathways: Durham delivers

For more than 40 years, Durham College has provided high-quality, market-focused programs, some of them unique in Ontario. All of our programs are developed and continually shaped by market needs, readying students for the jobs of today and tomorrow. Factor in our state-of-the-art equipment and facilities, high-tech base and professors with years of real-world experience and our students are well on their way to obtaining great careers and making a difference in the world.

Numbers don't lie: Durham College graduates hit the ground running

Durham College ensures graduates are ready for the job market and the results of the provincial government's annual Key Performance Indicators survey continue to confirm this. A remarkable 89.5 per cent of employers said they were satisfied or very satisfied with their decision to hire a Durham College graduate, a number that is in line with the more than 83 per cent of students who found employment within six months of graduation.

Success matters

Each year Durham College students excel in the classroom, the workforce and the community and the past academic year proved to be no different. It included the following:

- 176 Durham College students being honoured for academic excellence at the annual fall Scholarship Ceremony;
- Finishing as the top college in Ontario at the Cisco Networking Academy 2010 NetRiders Skills Challenge, with teams of students placing second, fourth, fifth and eighth;
- Durham Lords varsity athletes winning the Canadian Collegiate Athletic Association Community Service Award for their community service efforts;

Great results at the Skills Ontario Competition including:

- **Gold medal:** second-year Animation – Digital Arts students Jonathon Phillips and Patricia Ricafort in the 3-D Character Animation category;
- **Silver medal:** recent Mechanical Technician – Mechanical Maintenance and Control graduate Chris Kuypers in the Industrial Mechanic Millwright category and Jason Corlett, third-year Computer Systems Technology student, in the IT and Network Support category; and
- **Bronze medal:** Gas Technician 2 student Jeffrey McClenaghan in the Heating Systems Technician category and Christopher McFarlane, an advanced Machinist Apprenticeship student, in the Precision Machining category;

- Recent Paramedics graduates Ryan Chomiszak and Dustin Petherick, winning the Sudden Cardiac Arrest Foundation's, You Can Save a Life Video Awareness contest, resulting in the donation of an automated external defibrillator to the Student Services building; and
- Five recent Graphic Design graduates being honoured at the Association of Registered Graphic Designers of Ontario (RGD) Student Awards including Beth Chapleau who was recognized with the Macmillan Award of Excellence for Eastern Ontario for three of her design projects and fellow graduates Deanna Hall, Jennifer Real, Aislin Lackie and Kent Oliver who received honourable mentions. Chapleau also won two Applied Arts Student Awards while Hall and Real each received one.

Employer satisfaction guaranteed

Durham College's employer satisfaction guarantee applies to post-secondary graduates who obtain full-time, part-time or contract positions. If an employer finds that a graduate lacks the skills normally acquired in his or her program, the college will provide additional training. Full tuition support will be provided for one credit course taken at Durham College for up to one year after graduation.

Note: According to Ontario government protocol, the KPI graduate employment survey is conducted six months after students graduate.

1. Percentages in the working related and working columns have been rounded.

2. The college totals reflect more than the sum of the programs indicated due to FIPPA. Information is not published for programs where the number of graduates is less than five.

3. The program name and MTCU code changed during the survey period. This affected two graduating classes.

Career Services

Career Services offers a wide range of services that benefit employers, students and recent graduates. In January 2011, the Oshawa office moved to the new, state-of-the-art Student Services building. This new location allows the office to provide excellent support to students within the campus' new centralized hub for essential student services.

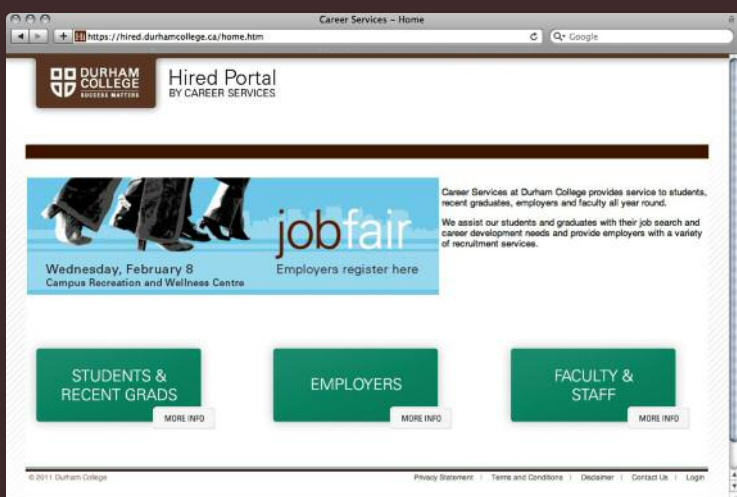

FOR EMPLOYERS:

- Interactive Hired portal with free job posting service;
- Employer guarantee;
- Large recruitment fairs;
- On-campus recruitment, information sessions, interviews and test co-ordination;
- Graduate connections; and
- Internship program.

We are proud to host employers at both our Oshawa and Whitby campuses to maximize student exposure and continue building successful partnerships in our local community.

FOR STUDENTS AND NEW GRADUATES:

- Individual career advising and career assessments;
- Assistance with writing resumés and employment letters as well as interview and portfolio preparation;
- Fall career fair and winter and spring job fairs;
- On-campus employer recruitment activities hosted throughout the academic year;
- Newly redesigned online career resources provide links to industry websites and information and statistics on graduate outcomes regarding employment, salaries and further education;
- Internship program; and
- Post-secondary students have access to advising services and the Hired portal from the moment they register until two years after graduating.

Hired portal

We invite employers, students and recent graduates to take advantage of our Hired portal, an exclusive online employment service. Students and recent graduates can book advising appointments, sign up for email notifications of job postings and search job leads and career events. The portal is also ideal for employers looking to expand their businesses as it enables them to post job leads for free and track hits to postings to measure levels of interest before application deadlines pass. In addition, they can schedule on-campus interviews, information and recruitment sessions and register for on-campus job and career fairs. Visit hired.durhamcollege.ca to learn more.

FAST FACT

In 2010, 1,906 students met with a Career Services advisor.

FAST FACT

Last year a total of 106 employers were on campus to meet and recruit Durham College students through a number of events including career and job fairs, information sessions and interviews.

Beautiful minds: expanding creativity and fine-tuning artistic skills

With advancements happening almost daily in technological arts, it's important for post-secondary institutions to stay on the leading edge of progressive program offerings. For students looking for the ultimate creative experience, Durham College has added two new, hands-on art-focused programs in September 2011 – Fine Arts – Advanced and VFX and Digital Cinema. The new Fine Arts – Advanced three-year diploma program is a comprehensive course that offers a broad base of experience and knowledge in visual arts through a range of ideas, media, material and techniques. Students can literally get their hands dirty as they explore sculpting, drawing, painting, photography, video, sound and multimedia and learn art practices that will enable them to make a creative impact on the visual arts community and local culture. VFX and Digital Cinema is a one-year graduate certificate program that introduces students to the various techniques used to create visual effects (VFX) for film and television. Courses allow students to develop skills in project management, post-production, VFX processes and creative design. Students also explore the generation of scenes combining live action and computer-generated imagery through the application of professional production techniques. Not only do they have the opportunity to learn from Durham College's exceptional faculty, they also benefit from the college's close location to recognized galleries, museums and studios in Oshawa, Whitby and Toronto. Students also benefit from the college's state-of-the-art labs and video equipment, which assists them with producing the best quality of work possible.

For more information, please visit www.mad.durhamcollege.ca.

FAST FACT

Four per cent of graduates from the class of 2010 started their own business within six months. Two per cent plan to start a business within a year.

FAST FACT

Last year 96 per cent of graduates said they would recommend Durham College to potential students.

Cold calls, unsolicited letters or emails to employer	3%
Summer/part-time/contract employment or volunteer position	1%
Social networking sites (e.g. LinkedIn, Facebook or Twitter)	1%

*These percentages are based on 1,139 graduate responses.

Please note: Due to rounding of figures, the above percentages may not add up to 100 per cent.

Employer quote:

"Graduates from Durham College bring the many transferable skills and qualities we require for success within our organization. We are very fortunate to have developed a strong relationship with Durham College Career Services over the past 10 years. The calibre of Durham College students is second to none and we have seen the value of the college's graduates as they move through our management trainee program, developing long-term, rewarding careers with us. We look forward to continuing our partnership with Durham College!"

Al Vescio, talent acquisition specialist, Enterprise Holdings

Graduate quote:

"The education I received at Durham College exceeded my expectations. The instructors used innovative techniques to keep me on the edge of the most current technologies in my industry. Success matters at Durham College and I felt this from the moment I stepped on campus. Upon my graduation, I was hired into the Purchasing department at the college and it feels great to know that I can do my part to ensure that the student experience comes first."

Donny Gough

2010 graduate, Business Administration – Operations Management program
