

# Graduate Employment Report

CLASS OF 2015 | FALL 2016

## Building a legacy of success

For close to 50 years, Durham College has provided high-quality, market-focused programs, some of them unique in Ontario. Our more than 140 full-time program offerings are developed and continually shaped by market needs, teaching students the skills they need for the jobs of today and tomorrow. This includes access to state-of-the-art equipment and facilities and the opportunity to learn from professors with years of real-world experience, enabling graduates to obtain meaningful careers and make a difference in the world.

## Durham College graduates continue to impress

Durham College is committed to ensuring our graduates are job ready and armed with the skills and knowledge needed to succeed in a wide range of careers. This is evident through the provincial government's annual Key Performance Indicators (KPI) survey, which reported an employer satisfaction rating of 92.2 per cent. The KPI results also showed that 83.2 per cent of Durham College graduates find employment within six months of graduation.

## Employer satisfaction guaranteed

Durham College's Employer Guarantee applies to post-secondary graduates who obtain full-time, part-time or contract positions. If an employer finds that a graduate lacks the skills normally acquired in his or her post-secondary program, the college will provide additional training. Full tuition support will be provided for one credit course taken at Durham College for up to one year after graduation.
